

ENVIRONMENTAL POLICY

SNF (UK) Ltd, based in Normanton, was established in 1986.

SNF (UK) Ltd supplies chemicals and provides technical and engineering support to both municipal and industrial customers for water treatment.

SNF (UK) Ltd recognises that its activities and products are capable of having a significant impact on the environment. We are committed to protect the environment, wherever possible, by preventing pollution and wasting resources whilst carrying out our activities.

We will ensure that all relevant environmental legislation, regulations and codes of practice are complied with, as a minimum.

- Endeavour to prevent pollution arising from our activities.
- Minimise the production of all types of waste and dispose of that which can not be avoided in a responsible manner.
- Conserve natural resources by using energy, natural resources and own products more efficiently.
- Regularly update product information with regard to environmental issues and communicate this to all relevant parties.
- Ensure that all employees are aware of this policy.
- Make the policy available to the public.

Andrew Wharton
