

July 2018

Polymer price increase

Dear Valued Customer,

We will be applying a price increase on all polymer products for orders placed after 1st September 2018 due to continued cost increases in our key raw materials and in freight. These increases are required to allow SNF to continue to deliver high quality products and technical service to our customers and invest for future market growth.

These increases apply to all customers where contracts allow.

As ever, we are constantly monitoring the prices of our raw materials and will quickly react to changes both up and down.

We thank you for your continued understanding during this challenging time.

Please contact your SNF sales representative if you have any questions.

Andrew Woollin
